Subject: Lost Horse rock quarry

JAN 08 2008**Ravalli County Commissioners**

--	--	--	--	--

To whom it may concern,

I am writing to tell you about my disagreement with the proposition to place a rock quarry on Lost Horse Creek Rd. There are many houses in the area, including the Lost Horse Creek Lodge (which promotes out of town/state visitors to the area) and many wonderful recreation activities and sites there. By adding the quarry, not only would there be a significant amount of noise and large trucks detracting people from the area, it would also negatively influence the county residents who are already living in the area. Nobody wants to go camping and listen to constant truck traffic and breath in the dust from the road ways. The Lost Horse Creek area is a wonderful recreation area, like no other in Ravalli County. I hope that you can look for another location for a quarry that will not effect so many residents and recreationist. Thank you for your time

Lauren Martin
